Statistics in Natural Science and Technology (Sven Knoth)  
Statistical Theory and Methodology (Harry Haupt)  
Methodology of Statistical Surveys (Ralf Münnich)  
Education and Training (Ulrike Rockmann)

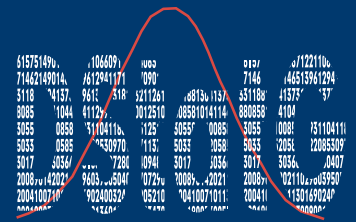

The German Statistical Society organizes within the German Statistical Week its Annual Meeting 2013 at the Freie Universität Berlin. It is intended at every statistician from all areas of the university, business and public administration.

The German Statistical Week is corporately organized with the „Verband Deutscher Städtestatistiker“. The German Statistical Society for Demographics is going to offer their own section. Participants intending to give a talk or to present a poster are invited to submit an abstract electronically via the conference submission system. The submitted abstracts will undergo a reviewing process.

The German Statistical Society supplies a limited amount of grants covering travelling allowances for members younger than 35. Details can be found on the Society's homepage.

Additional information available online
