

36th Finnish Summer School on Probability and Statistics

1 – 5 June 2015

Päivölä College
Valkeakoski, Finland
www.paivola.fi

Mindaugas Bloznelis (Vilnius U)

Topics in random graphs

Krista Fischer (Estonian Genome Center)

Causal inference in biomedical applications

Mikhail Lifshits (St. Petersburg State U)

Gaussian processes: Applications and approximations

Domenico Marinucci (U Rome Tor Vergata)

Random fields on the sphere and their cosmological applications

Registrations are due by 20 May 2015. The summer school is organized by the Finnish Doctoral Programme in Stochastics and Statistics (FDPSS).
