

**DySES 2018**  
Dynamics of Socio Economic Systems

**Systemic Risk**  
October 9 - 12, 2018  
Paris, France

Dear Colleague,

on behalf of the organizing committee, it is a pleasure to announce that the International Conference

### **DySES 2018 - Dynamics of Socio-economic Systems: Systemic Risk**

will be held in **Paris, at the University Paris 1-Sorbonne, October 9<sup>th</sup>-12<sup>th</sup> 2018.**

It will be an International Conference that will give scientists and practitioners coming from many countries the opportunity to meet and exchange experiences and ideas concerning the themes of Systemic Risk in many frameworks:

- Systemic risk (general)
- Risk management
- Stress testing
- Catastrophic risk
- Impact of natural disasters on the economy
- Fragility of financial systems and regulations
- Impact of regulations
- Cyber security
- Aerospace security

Methodologies include (but are not limited to):

- Networks
- Complex systems
- Agent based modelling
- Non-linear econometrics
- Multivariate methods
- Self-organized criticality
- Multi-criteria methods
- Soft computing
- Bayesian methods
- Operational research
- Optimization methods

It is worth remembering that the previous DySES Conferences were successfully organized in the following venues:  
DySES 2009: Pinamar, Argentina - DySES 2010: Benevento, Italy - DySES 2012: Ushuaia, Argentina - DySES 2014: Sevilla, Spain - DySES 2016: La Habana, Cuba

We warmly invite you to attend DySES 2018 and to submit an abstract.

#### **Important Deadlines**

Abstract submission: June 15, 2018

Notification of abstract acceptance: June 30, 2018

Early registration: July 21, 2018

Regular registration: August 20, 2018

For further information and updates, please visit <http://www.dyses2018.org>.

Please help us disseminate this announcement among all of your contacts.

***Welcome to Paris in October!***
