

The **PhD in Economics and Finance** is a **4-year** full-time programme providing advanced specialization in economics, finance and quantitative methods to students whose goal is to pursue a successful career in academia or in institutions that require first-rate research skills.

The programme is hosted by the **Department of Economics and Finance (DEF)** of the **University of Rome 'Tor Vergata'**. It offers a distinguished faculty, promoting excellence in teaching and research, and a lively and international research environment. RePEc and Tilburg University rank DEF among the top 5 institutions in Italy, and the top 100 in Europe. The Department has been recently financed by the Italian Ministry of Education, University and Research under the program "Departments of Excellence".

In the first year of the programme students take advanced core courses in microeconomics, macroeconomics, finance and econometrics. After choosing their field of specialization, the subsequent three years are entirely dedicated to research, including attendance and presentation at departmental seminars.
