

# THE 3<sup>rd</sup> WINTER WORKSHOP ON STATISTICS & COMPUTER SCIENCE - SCIENTIFIC APPLICATIONS OF BAYESIAN ANALYSIS -

Israel, December 5<sup>th</sup> & 6<sup>th</sup> 2004

Ein-Gedi Resort and Conference Center, Ein-Gedi, Dead Sea, Israel

<http://www.ein-gedi.co.il>

The 3<sup>rd</sup> Winter Workshop will bring Bayesian statisticians and decision theorists together with scientific practitioners who use, or may use, Bayesian methods in scientific research. Workshop participants will include leading researchers from statistics and computer science together with a range of applied social, natural, biomedical and engineering scientists, in a forum conducive to free-flowing exchange and discussion of Bayesian ideas and applied Bayesian methods. Invited presentations will address issues pervasive in scientific inference, recent developments in the theory, methods and computational aspects of Bayesian statistics and decision analysis, and various scientific applications.

The Workshop is co-sponsored by:

- Caesarea Rothschild Institute,  
Haifa University
- Center of the Study of Rationality  
Hebrew University
- Hebrew University of Jerusalem
